EXECUTIVE SUMMARY

The purpose of the Investment Strategy and Manager Summary is to update Committee Members on the performance of the Fund's investment strategy and performance of the Fund's investment managers.

The report covers the quarter ending 30 September 2018.

From an Investment Strategy perspective, the In-House portfolios and the Tactical Allocation Portfolio produced positive returns and outperformed their composite targets. Equity assets achieved a positive return, but underperformed their composite target, and Total Credit and Managed Account Platform had negative returns in absolute and relative terms. Key facts covered in the report are as follows:

- Over the 3 months to 30 September 2018, the Fund's total market value increased by £39.0m to £1,886,749,578
- Funding level information has not been provided. However liability roll forwards are now based on the discount rate methodology on the CPI basis.
- Over the quarter, total Fund assets returned 2.5% marginally ahead of the composite target which returned 2.4%.

The benchmarks are reflective of the new strategic weightings, although commitments to Private Credit will take some time to be fully invested.

There was mixed performance amongst the Fund's investment managers in terms of outperforming or underperforming their respective targets during the quarter.

1	To note and discuss the investment strategy and manager performance in the Investment Strategy and Manager Summary 30 September 2018.

In addition, in relative terms the Credit portfolio also performed well against its benchmark.</p> <p>The Fund's asset portfolio is broadly within the new strategic ranges set for the asset classes as agreed in the recent strategy review. The largest overweight position is within the LDI portfolio which is being reviewed as part of the wider assessment of the Fund's risk management strategy.</p>
1.02	<p>At this time, there are no immediate concerns with any of the Fund's investment managers and there are regular meetings held with the managers to discuss individual mandates.</p> <p>As part of the Funds Strategic Asset Allocation review scheduled for 2019, individual manager mandates will be reviewed. The Fund will need to be conscious of the plans of the Wales Pension Partnership when assessing its investment managers, as the costs of transitioning to new management arrangements ahead of any potential move to the Pool could be significant.</p> <p>This work will take place with the Fund's investment consultant in conjunction with the 2019 Actuarial Valuation.</p>

4.00	RISK MANAGEMENT
4.01	<p>The Fund's investment strategy has been designed to provide an appropriate trade off between risk and return. The Fund faces three key investment risks: Equity risk, Interest Rate Risk and Inflation Risk.</p> <p>Diversification of the Fund's growth assets away from equities seeks to reduce the amount of the equity risk (though it should be recognised that Equities remain an important long term source of expected growth). The implementation of the Fund's De-Risking Framework (Flightpath) has been designed to mitigate the Fund's Interest Rate and Inflation Risks.</p>
