Report Subject	Alternative Delivery Models Phase 2
Cabinet Member	Cabinet Member for Corporate Management and Assets
Report Author	Chief Executive Chief Officer (Streetscene and Transportation)
Type of Report	Strategic

EXECUTIVE SUMMARY

The Council adopted a programme of transferring selected services from direct delivery models to Alternative Delivery Models (ADM) in 2014. The programme was a big part of a renewed strategy for organisational change, and was designed to make significant annual revenue savings as a contributor to the Medium-Term Financial Strategy, whilst ensuring the protection of those services into the future. This initial programme has been completed successfully.

The Council is now ready for a second phase of the programme. This phase of the programme is more expansive with a wide range of concepts for alternative service delivery models for existing services and new models for new service innovations.

The report seeks support for the second phase of the programme, with each of the proposed service models detailed in this report to be explored further with progress reports to follow.

F	RECO	MMENDATIONS
	1	That Cabinet approves the second phase of the Alternative Delivery Model programme and refer this report to the Organisational Change Overview and Scrutiny Committee in September for review and comment.
	2	That Cabinet requests further reports, evaluating each of the proposed service models for more detailed consideration prior to any formal decision on their future, noting that several of the models are well advanced and that one (the CCTV Monitoring Service) has been given a separate and prior approval.
