

Notice of Motion
Flintshire County Council – 11 September 2019

Councillor Ian Roberts

#IPledge2Talk suicide prevention campaign

This Authority supports the #IPledge2Talk suicide prevention campaign and will work to support positive mental health across Flintshire communities, in local schools, neighbourhoods and workplaces.

As a local authority, we acknowledge our crucial role in promoting awareness of this issue.

Encouraging mental well-being should be a priority across all the local authority's areas of responsibility, including housing, education, community safety and planning.

Throughout its work the authority will champion mental health on an individual and strategic basis.

For your information the: The #IPledge2Talk campaign was launched at the Senedd a couple of months ago by Eluned Morgan in collaboration with Mind Cymru.
