Rebalancing Asset Allocation

Background

The Investment Strategy Statement (ISS) includes a target allocation against which strategic performance is monitored (Strategic Allocation). There are strategic ranges for each asset category that allow for limited deviation away from the strategic allocation as a result of market movements. In addition there is a conditional medium term asset allocation range (Conditional range) to manage major risks to the long term strategic allocation which may emerge between reviews of the strategic allocation.

The Tactical Asset Allocation Group (Investment Consultant & Officers) which meets each month consider whether it is appropriate to re-balance to the strategic asset allocation. Recommendations are made to the Head of the Clwyd Pension Fund who has delegated authority to make the decision. Re-balances or asset transitions may be required due to market movements, new cash into the Fund or approved changes to the strategic allocation following a strategic review.

Action Taken

In the period April to June 2021 there were no movements between assets.

Cash Management

Background

The Deputy Head of the Clwyd Pension Fund forecasts the Fund's 3 year cash flows in the Business Plan and this is monitored quarterly and revised on an annual basis. The bank account balance is monitored daily. The main payments are pension related, expenses and investment drawdowns. New monies come from employer and employee contributions and investment income or distributions. This cash flow management ensures the availability of funds to meet payments and investment drawdowns. The LGPS investment regulation only allow a very limited ability to borrow. There is no strategic asset allocation for cash, although there is a strategic range of +5% and a conditional range of +30% which could be used during times of major market stress.

Action Taken

The cash balance as at 30th June 2021 was £60.7m (£37.1m at 31st March). The increase was due to the deficit contributions that the 3 main employers pay up front in April and the continued levels of Private Market distributions over drawdowns in the 1st quarter. The cash flow is monitored to ensure there is sufficient monies to pay benefits and capital calls for investments. Work is continuing with the Consultant and Actuary to monitor the cash-flow situation and be aware of any unforeseen issues. As part of the Investment Strategy Review, the new Cash Management and Risk Strategy can be utilised if this situation reverses. Monthly cash flows for the financial year to 2021/22 are shown graphically at the end of the delegations appendix.

| 1.05.3 | Investment into new mandates / emerging opportunities | PFM and either the CFM or CEO (having regard to ongoing advice of the IC) | High level monitoring at PFC with more detailed monitoring by PAP |

Background

The Fund's current investment strategy includes a 27% asset allocation to private equity (8%), property (4%), infrastructure (including legacy timber and agriculture assets) (8%), private debt (3%) and impact / local investing (4%) These are higher risk investments, usually in limited partnerships, and as such, previously, these are smaller commitments in the range of £8m to £15m in each. Across these asset categories there are currently in excess of 60 investment managers, investing in 115+ limited partnerships or other vehicles.

The Private Equity & Real Estate Group (PERAG) of officers and Consultant meet at least quarterly and are responsible for implementing and monitoring the investment strategy and limited partnerships across these asset classes. The investments in total are referred to as the 'In-House portfolio'. There is particular focus on Environmental, Social and Governance (ESG), sustainability and impact aspects on the investments made.

A review has been being undertaken of the existing portfolio and future cash flows by the Consultants and the results determined the forward work plan. It is anticipated that when the Wales Pension Partnership (WPP) are able to accommodate commitments in these alternative areas, the Fund will commit any available monies through the WPP. The Fund Consultants and WPP will work closely to ensure the available sub funds are suitable for the Funds existing Private Market strategy. Until these asset classes are available through the WPP, the Fund will continue to work with Mercer recommendations to deploy capital and look for any opportunities which fulfil the current agreed strategy.

Action Taken

Due diligence is currently being completed by Mercer on several managers across several of the asset classes for recommendations to be made in the next few months. In addition the following investment has been agreed:

Impact / Local

- Bridges Sustainable Growth Fund IV(B) £11m
