Rebalancing Asset Allocation

Background

The Investment Strategy Statement (ISS) includes a target allocation against which strategic performance is monitored (Strategic Allocation). There are strategic ranges for each asset category that allow for limited deviation away from the strategic allocation due to ordinary market movements. In addition, there is a conditional medium-term asset allocation range (Conditional range) to manage major risks to the long-term strategic allocation which may emerge between reviews of the strategic allocation.

The Tactical Asset Allocation Group (Investment Consultant & Officers) which meets each month consider whether it is appropriate to re-balance to the strategic asset allocation. Recommendations are made to the Head of the Clwyd Pension Fund who has delegated authority to make the decision. Re-balances or asset transitions may be required due to market movements, new cash into the Fund or approved changes to the strategic allocation following a strategic review.

Cash Management

Background

Fund officers produce a 3-year cash flow forecast as part of the Fund's Business Plan which is monitored quarterly and is revised on an annual basis. The Fund's bank account balance is monitored daily. The main payments relate to members' pensions, expenses, and investment drawdowns. New monies are received from employer and employee contributions, investment income, or distribution income. This cash flow management ensures there are available funds to meet pension payments and investment drawdowns as and when they fall due. The LGPS investment regulations allows very limited borrowing ability. Following its interim strategy review, approved at the March 2024 Committee, the Fund implemented a 5% strategic allocation to Strategic Cash. The conditional range for up to 30% in cash remains in effect.

Action Taken

The Fund's in-house cash balance at 30th June 2024 was £47.6m (£37.1m at 31st March 2024). The increase in cash is a result of the redemptions made during Q1 2024/25. There were several Private Market capital calls the most recent quarter (drawdowns exceeded distributions by c. £10m), and the usual monthly pension payments. The overall cash flow is monitored regularly to ensure there is sufficient funds to pay benefits and capital calls for investments as and when they fall due. Work continues to be undertaken by Officers and the Fund's Consultant and Actuary to monitor the cash flows in the event any unforeseen

situations arise. Monthly cash flows for the 2023/24 financial year are shown graphically at the end of the Delegations appendix.

1.09.03	Investment into new mandates / emerging opportunities	HCPF and either the CFM or CE (having regard to ongoing advice of the IC)	High level monitoring at PFC with more detailed monitoring by PAP

Background

The Fund's current investment strategy includes a 29% asset allocation to Private Markets, which includes investments in Private Equity (8%), Property (4%), Infrastructure (including Timber and Agriculture assets) (8%), Private Debt (3%), and Impact / Local Investing (6%). These investments are considered higher risk due to their illiquid nature. For this reason, the Fund makes smaller commitments typically ranging from £8m to £20m to this space. The Fund currently has more than 65 managers and 150 separate mandates across these asset classes within its Private Markets portfolio.

The Private Equity & Real Asset Group (PERAG) of Officers and Consultants meet at least quarterly and are responsible for implementing and monitoring the investment strategy and limited partnerships across these asset classes. All investments made under this remit are referred to as the 'In-House Portfolio'. There is a particular focus on Responsible, Sustainable, and Impact themes, as well as Environmental, Social and Governance (ESG) considerations when investments are made.

A review of the existing portfolio and future cash flows has been undertaken by Consultants to establish the forward work plan. It is expected that future commitments to Private Market investments, including these alternative areas, will be made through the Wales Pension Partnership (WPP) once available. The Fund Consultants continue to work closely with WPP to ensure appropriate sub-funds are available and remain suitable for the Fund's existing Private Market strategy. In the meantime, the Fund continues to take recommended advice from Mercer to deploy capital in new impact / local opportunities.

Action Taken

Due diligence continues to be undertaken by Mercer on several managers across the various asset classes, and recommendations are being considered for the Fund's Impact/Local allocation. Two new commitments have been agreed since the March 2024 Committee meeting and is detailed below and is referenced in **1.06** within the main report.

Impact / Local Octopus, Affordable Housing Fund - £10m commitment

Private Debt LGT Capital, Crown Impact Private Debt Fund - €12m (£10m)

Clwyd Pension Fund - Cash-flow 2023/24
