As of 31st March 2024

Clwyd Pension Fund are committed to making place-based investments. These are in funds that invest in Wales or contribute to creating positive social and environmental impacts across the UK.

- £217 million committed to placebased investments (8.7% of Clwyd Pension Fund value)
- £60 million committed to funds investing exclusively in Wales
- £115.5 million currently invested in 204 assets across the UK
- Of this, £27 million is invested in 24 assets across Wales
- In the last year £19.7 million has been invested in Wales and a further £16 million in the rest of the UK.

How We Invest (% of amount invested)

How Our Investment is Supporting Wales and the UK

- 73 businesses are currently supported through equity or debt finance, 20 are in Wales. 10 new businesses have received support in the past year.
- These businesses account for over 15,280 jobs with 8% of jobs in Wales.
- At least 1,380 new jobs created since investment with 11% in Welsh businesses.
- 15 businesses are accredited Living Wage Employers or pay all employees the Real Living Wage, up from 12 businesses last year.

- 20 housing assets including:
- 8 housing developments consisting of **2,540** homes for over **6,300** people. **26%** of homes are Affordable. **174** homes invested in the past year.
- 8 supported and senior living homes for up to 338 residents.
- 4 developments providing accommodation for almost 1,700 students.
- 39 infrastructure assets including:

3 health facilities and 1 water and waste facility

- 36 commercial real estate project supporting employment space for an estimated 7,440 people (28% in the most deprived local authorities in the UK).
- 31 leisure based real estate assets supporting 662 permanent and 109 seasonal Real Living Wage jobs, 16% of Leisure based assets in Clwyd.

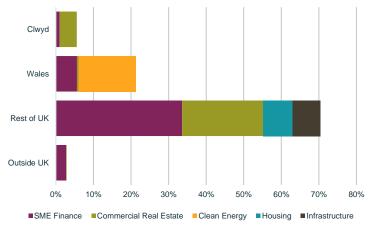

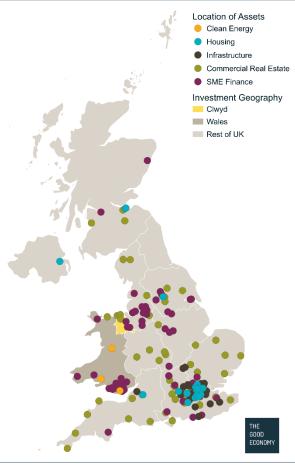

£42.7 million committed to the development of clean energy projects in Wales. See case study.

10%+ net IRR

Contribute to climate change mitigation by directly investing into low-carbon renewable energy projects in Wales.

In summer 2022, Capital Dynamics entered a partnership with Clwyd Pension Fund to deliver clean energy infrastructure in Wales. The partnership allows Clwyd to invest directly into renewable energy opportunities and contribute to the Welsh government's commitment to net zero and energy transition targets, in alignment with the Welsh Government's National Development Framework. Clwyd approached Capital Dynamics to partner with, drawing on their relationship of over 25 years and Capital Dynamic's experience in the clean energy sector. £50 million has been allocated by Clwyd to invest in four to five renewable energy projects across the development spectrum, from early-stage development through to operating assets. To date, £42.7 million has been committed to three projects, of which £19.3 million has been invested.

Home Farm

Sector: Solar PV Stage: Operational

Investment commitment: £4.7million, of which 98% has been invested

Clwyd wholly acquired Home Farm which is a 3MW Solar Farm located west of Cardiff in South Wales. It has been operating and generating an income since 2017 and is coupled with a biodiversity site.

Brynrhyd

Sector: Solar PV Stage: Construction

Investment commitment: £28million, of which 42% has been invested

Brynrhyd is a 30MW Solar site in Pontarddulais, southwest Wales. Clwyd's investment is being used to wholly acquire the project and construct the solar farm. The solar farm is estimated to generate sufficient electricity to power approximately 10,000 homes per year, contribute £3.5 million in gross value added to the economy, and not require government subsidy. 35 jobs will be supported during construction phase. Capital Dynamics has committed to provide a Community Benefit Fund of £53,000 which is intended to financially support local initiatives such as training and education programmes, improvement of physical environments habitats, community facilities and energy efficiency infrastructure, or subsidise community power bills.

Bute

Sector: Onshore wind

Stage: Early-stage development

Investment commitment: £10million, of which 29% has been invested

Bute Energy is a Welsh onshore wind and solar energy park developer with a mission is "to create renewable energy projects that build a healthier, wealthier Wales". The project is estimated to produce sufficient electricity to power approximately 553,112 homes annually. Clwyd's investment is in the form of a loan, which is expected to fund the development of 16 sites across Wales. The investment was made in partnership with Wales Pensions Partnership's Clean Energy Fund (CEI WPP), also managed by Capital Dynamics, meaning Clwyd is co-investing with six other Welsh Pension Funds. It is expected 200 jobs will be supported during construction phase. Capital Dynamics intends to fund £7,500 per MW of operational wind and £1,000 per MW of operational solar projects from the Bute Portfolio into Community Benefit Funds.
