EXECUTIVE SUMMARY

This report provides the Committee with an update on the Corporate Recovery Risk Register and Mitigations (shown at Appendix 1 and 2).

Risks continue to be managed well as they have throughout the pandemic. We currently have 34.3% of risks rated green, 65.7% rated as amber and 0% as red.

We have a total of 35 risks that have previously been closed. 34 of these closed due to reaching target risk rating. 1 risk was closed due to duplication. We have 0 risks which are to be closed at this review.

This round we have removed '*CF14 Increase in rent arrears impacts on the stability of the Housing Revenue Account (HRA) Business Plan*' following agreement by this committee at the last meeting due to the risk being reported through Housing and Assets risk register. This will reduce duplication.

RECOMMENDATIONS

1	That the Committee review the latest risk register and risk mitigation actions within the corporate portfolios

8.01	Risk Management: the process of identifying risks, evaluating their potential consequences (impact) and managing them. The aim is to reduce the frequency (likelihood) of risk events occurring (wherever this is possible) and minimise the severity of their consequences (impact) if they occur. Threats are managed by a process of controlling, transferring or retaining the risk. Opportunities are managed by identifying strategies to maximise the opportunity or reward for the organisation.
